Canon Pixma Pro9500 Mark II

All Prints are done using the Canon PIXMA Pro9500 Mark II Printer. The Canon PIXMA Pro9500 Mark II Printer produces professional, lab-quality photographs with remarkable detail and accuracy. Designed and developed to accommodate size-conscious photographers and imaging professionals, the Pro9500 Mark II produces borderless, large-format photos up to 14 inches wide.

Lucia Pigment-based Inks

The ChromaLife100 ink system and Lucia pigment-based inks have WIR Display Permanence Ratings in excess of 100 years for color images and significantly beyond that for monochrome when printing on select Canon photo and fine art papers. The pigmented inks also provide excellent short-term color drift behavior, which is critically important for color managed workflows and for proofing applications.

Photo Paper

Canon Photo Paper (Semi Gloss) Get excellent photo results with a semi-gloss finish and vibrant color. With Photo Paper Plus, your prints will have the look and feel of a traditional photograph.

Canon Photo Paper Plus Glossy II is an inkjet paper that produces vivid color and a high-quality finish. Yields a glossy finish and exceptionally rich colors, giving your images the look and feel of a traditional photograph.

8.5 x 11.....	\$16.00

Prints up to 14 x 17, 13 x 23, and custom sizes on Fine Art Paper available. Please call for pricing.

Fine Art Photo Paper

Canon Fine Art Enhance Velvet Paper is made for artists and photographers who demand an inkjet paper that shares the same texture and feel of a watercolor paper. The Fine Art Enhance Velvet Paper allows you to produce a print with a very high resolution and wide color gamut. After printing, the ink looks like it's in the paper, not on it, providing both a surprising richness of color and a slight softness to the image.

Canon Fine Art Museum Etching inkjet paper is a 100% cotton rag paper with a rough textured finish intended primarily for use with the pigmented ink of the Canon PIXMA Pro 9500 inkjet printer.

Canon Fine Art Paper Photo Rag is a bright white 100% cotton fiber paper for use with inkjet printers when one desires a velvet surface on the most stable substrate possible.

Canon Fine Art Paper Premium Matte is a bright white matte paper for use with inkjet printers when one desires a dead flat, non-glare surface.
